#### GLAMOUR TECHNICAL PARAMETERS

- Trim size: 167x223 mm
- Spread: from 120+4 pages
- Material Delivery: digital
- Paper: inside 57g UPM Ultra Matt 1.2 vol., cover 170g enamelled paper

#### MATERIAL SUBMISSION

- e-mail: [asbhirdetes@ringier.hu](mailto:asbhirdetes@ringier.hu)
- In the e-mail and in the name of the materials please give the name and size of the advertisement, the name of the title in which it should appear and the date of the appearance.
- Regarding the FTP server, please contact your sales representative.
- In case of loading to the FTP, please give the name of the advertisement loaded, the title and the issue of the title to which the advertisement was sent, the appearance date of the advertisement and the name of the folder, in which the material has been placed, per e-mail on [asbhirdetes@ringier.hu](mailto:asbhirdetes@ringier.hu).

#### TECHNICAL INFORMATION

The finished materials can be accepted by us in **composite pdf format, CMYK color separation and 300 dpi** resolution.

**In planning, the following points must be taken into account by all means:**

Total paint load: max. 300% (the total area coverage should not exceed the limit value of 300%).

Be sure to use the correct colour space (ICC). Inner sheet colour profile: `PSO_MFC_Paper_eci.icc`

Convert the text in the file to a curve (outline, curve); make sure that the overprint, knock-out settings are correct.

For ads made in InDesign, please make sure that the text layer is on top. For Photoshop (pdf) formats always flattened, CMYK, material with a resolution of at least 300 dpi can be accepted by us.

We cannot accept material made in CorelDraw.

When planning, please take into account the technological limitations of the used printing process (different paper qualities, fold, cut and color matching fluctuations, thin graphic elements rotated to negative, font size).

Black texts and logos should be on a black plate (C:0% M:0% Y:0% K:100%) and please avoid the use of direct colours in any case.

**Additional requirement for full-bleed ads:**

For full-bleed materials we ask for 5 mm space around.

Don't design useful information 5 mm inwards from the cut. The cutting and registration marks and the colour scales should be at least 5 mm from the cutting line, but they should definitely be located outside the advertisement.

**For advertisements to be prepared:**

Please send the images and logos for the ad to be published in 300 dpi resolution, and the text saved as a Word document, by the page setting deadline specified in the magazine's schedule.

**If the submitted material does not meet the (technical) material submission parameters of the GLAMOUR magazine, we cannot guarantee the correct appearance of the ad, therefore we cannot accept complaints.**

#### INSERT

Material deadline: 10 days before on sale date.

Name of the advertiser, exact number of the items, title of the magazine, issue date of the magazine.
